

I have been long impressed by Mr. Pramod Ramteke, whom we all lovingly call Pramodbabu. So taking up this opportunity I am summing up a few words which would best describe my approach to my best friend, my associate.

To be modest, I have been a witness to all the elusive shows which carried paintings done by Pramodbabu himself. He has established his own identity in the modern Indian contemporary art world. His unique images and typical lines have always been fascinating and mesmerizing to the viewers. Pramodbabu has a mastery in oil, water colour, pastels and acrylic as well as in drawing. He is also experimental and creative in his approach. He is original in concept and inventive in technique. He has the ability to grasp the essential in his subjects and convey it through his main tools of choice, the palette, knife and the brush. The result is a harmonious composition which has a tactile textural paint surface with pleasant colourful passages. He is just professional in the method of creating paintings with a inner glow.

The mesmerizing shapes, extravagant colour schemes with surrealistic atmosphere and play with transparent and opaque for the creation of a beautiful artwork contributing to society, to our natural world providing a sense of awareness where we belong. This genuine & sincere approach from Pramodbabu has attracted me ever since and my best wishes for his triumph.
